

Digital Safety Parental Engagement Online Safety Hub

Warwickshire LA
Primary Schools

2024 / 2025

Introduction

This document provides you with all the information you need to easily maintain an annual Parental Engagement Programme. The purpose of the plan is to educate and support your parents in navigating their children's digital safety and well-being and encourage uptake of both the Online Safety Hub and the Qustodio online safety parent app.

We suggest sending out four follow-up communications to parents, in order to help promote and encourage up-take of both the Online Safety Hub and the Qustodio app.

The communications include an email, social media posts and text messages to parents.

Additionally, we recommend sharing Online Safety Hub articles with parents throughout the school year, across all relevant communication channels. These channels may include for example, weekly emails, newsletters, social media pages, or text messages.

To help you drive engagement with parents, please see below ready-to-go written material for these four communications.
