

Our Collection of Crosses

During the spring term 2016 we asked families to help us build up a collection of Christian crosses from countries around the world.

This is an ongoing project. Our aim is to have one cross displayed by the main light switch in each room.

So far we have received crosses from five different continents!

These crosses are made out of variety of materials including wood, metal, clay and one contains pieces of shell.

We hope you enjoy looking
for the different crosses as
you move around our school.

Thank you to all the families
who have donated crosses.

If you would like to donate
a cross we would be
delighted to display it
within our school.
