

School Council – Friday 9th December 2022

Unfortunately, Key Stage 1 could not join us due to their nativity rehearsal.

1. Amelie and Leonor are to get back to me by Thursday with some information for the newsletter. The children have discussed having a school mascot and would like to run a competition over the Christmas period.
The entries will be presented to the governors and the children and governors will select the winning design.
2. Anya and Florence are designing posters for a bake sale in the new year. We haven't decided what we are raising funds for just yet. (all ideas welcome)
3. Luke and Charlie are going to be working with Lauren. The children have discussed planting more trees. Lauren has applied to the Woodland Trust in order to get a delivery of trees for March. The School Council will be involved with planting these.
4. Luke and Charlie are putting together a healthy snack competition ready to launch in the new year. The winner will be announced in collective worship in January/early February and this will lead into the School Council delivering a healthy eating presentation to the school.
5. I am currently looking to get a local artist in to redesign one of the boards in the school hall – linked to healthy eating and the winning poster. School Council will hopefully be working with the artist.
6. I have received an email from Warwickshire County Council regarding assemblies and workshops on recycling and composting. I have been in contact with them so the School Council can work with them to deliver these. Again, further information to follow in the new year.

Additional ideas brought to School Council

- School therapy dog
- Year 6 to read with the younger children
